 www.github.com/rhodstar

My name is Rodrigo Francisco Pablo and I'm a passionate software developer intrigued by builiding quality and durable backend and mobile aplications.

Expirience

2017–2021 | **Intern at PROTECO**
FI · UNAM

As an intern I had two main responsabilities: i) Coordinated several internal projects; ii) Give intersemester courses of various programming languages, frameworks and some other technologies: Java, C, Python, Laravel, GNU/Linux, Android and VueJS

2015–2021 | **Intern Web developer**
LUDOMATICS · Edo. Mex

As a web developer I was in charge of building a system to monitor the student progress in their courses.

Languagues

Spanish | mother tongue

English | ● ● ● ● ○ ○

Soft skills
